Sir David Attenborough,
Fauna & Flora Vice-president
Fauna & Flora

Fauna & Flora saves species from extinction and habitats from destruction, while improving the livelihoods of local people. Our guiding principles are to work through local partnerships, act as a catalyst for change, make conservation relevant, and base decisions on sound science. Founded in 1903, Fauna & Flora is the world’s longest established international conservation body; our conservation work, and impact, spans the globe.

Fundraising Team

The Fundraising team currently consists of around 20 individuals split into three sections – Supporter Development, Major Donors and Institutional Fundraising. This role is within the Supporter Development section, which focusses on raising unrestricted income from the general public. We work closely with the Communications team on publications and online communications, working to ensure our brand reputation is protected. Our income targets are bold and ever-growing, making it a dynamic and ambitious environment.

The Opportunity

This is a truly exciting time to be joining Fauna & Flora’s Fundraising Team. Over the past three years we have established a fundraising programme that is going from strength to strength. More people than ever are choosing to support our work, and as a result our donor base is rapidly growing. The focus on nurturing relationships with these donors and providing an excellent experience is a strategic priority.

We are seeking an individual with excellent supporter care skills who can help us to build excellent relationships with our supporters and has a real affinity with the work that we do. Your role will involve responding to supporter requests, questions and queries from a range of communication channels, including email and phone, helping to deliver a first-class supporter experience. This frontline role is contributing to the development of the fundraising team to reach unrestricted income targets.

You will initially report directly to the Head of Supporter Recruitment and Development, and work closely with the Database team on a range of activities.

You will be self-driven and well organised with meticulous attention to detail and excellent communication skills. In return, the role offers the opportunity to work within a friendly and lively team that is part of a groundbreaking and entrepreneurial organisation at the forefront of global conservation. In addition, we offer a generous pension contribution, attractive annual leave allowance and life insurance.

Our offices are located in The David Attenborough Building in central Cambridge, just a few minutes’ walk from glorious historic buildings and museums, the picturesque River Cam, the central market and shopping centre, and a host of cafés and restaurants.
